PRODUCT DESCRIPTION

Designer Dony Dawson was inspired by minimalist design and simple lines while observing design trends in Europe. Flip allows both sides of a Clarus Board to be utilized for a heightened design aesthetic and elegant functionality. Enhance any space with a beautiful mix of Clarus Boards on one side and Clarus Felt acoustic panels with custom prints, patterns and colors on the other side.

Customize your Flip to define your space. Flip is available with 10 beautiful frame colors in an anodized and powder coated finish. Specify over 150 glass colors from Colors by Clarus.

Then, complete your Flip with five acoustic panel styles and 15 panel colors!

Flip allows both sides of a Clarus Board to be utilized for a heightened design aesthetic and elegant functionality. Enhance any space with a beautiful mix of Clarus Boards on one side and acoustical panels with custom prints, patterns and colors on the other side. Prepare for a presentation, take notes or map out a strategy with Flip. The Flip panels effortlessly rotate to hide your notes and reveal a design oriented acoustical pattern when the Clarus Boards are not in use.

On the Clarus Board side of Flip, any color can be specified from the Colors by Clarus collection of over 150 standard colors. Flip also include magnetic glass for enhanced functionality.

On the Clarus Felt side, a mix of panel styles and colors allow customization to any space. Each panel is made from premium, 100% recycled acoustical PET material. These panels reduce noise in open work-spaces and are tackable for function.
